

Specification of products

PIR Sensor Switch

Item No.	Description	Specification	Packing
01166115609	PIR Sensor Switch	45-100W 220V~	6pcs/inner box 60pcs/carton

1.Application Range

Widely used for corridor, passageway, basement, warehouse, garage etc.

2.Product Features

This product using infrared automatic control technology, when person enter the sensor detectable area, automatic switched on; the switch will be on continuity if the person stay and the sensor can sense the movement; when the person leave, the time delay will be automatic switched off, and light off after 60 ± 10 seconds.

3.Specification

- 1) Rated Voltage: 220V~
- 2) Power Consumption: $< 0.5W$
- 3) Delay Time: $60 \pm 10S$
- 4) Load Characteristic: Fluorescent Lamp, Energy Saving Lamp, Incandescent Lamp etc.
- 5) Load Power: LED Lamp: 3~45W
Energy Saving Lamp $\leq 65W$
Incandescent Lamp $\leq 100W$
- 6) Operating Temperature: $-20^{\circ}C \sim +50^{\circ}C$
- 7) Detection Range: Horizontal View Angle $\leq 120^{\circ}$
Vertical View Angle 36°
Detection Distance $< 8m$

4.Wiring Diagram
